Secret!

OBLIGATIONS*

ACCEPTED AT THE WORKING MEETING IN SOFIA, 23-26 OCTOBER 1989

USSR	PR BULGARIA
1. To reply about the delivery of Fire control Calculator "David", 1 piece. Deadline 30.11.1989	1. Information about the possibilities to continue work on the engine and transmission of [tank] Leopard. Deadline 30.12.1989
2. To reply about the acquisition of receiver-transmitter C-1000 with changing frequencies. Deadline 30.11.1989	2. To reply about the possibility to deliver 120 mm tank gun "Reinmetal", 5 pcs or more ammunitions. Deadline 30.12.1989
3. To reply about the interest in the delivery of a system for direct control – optical system, turbine blades, etc. Deadline 30.12.1989	3. Delivery of 130 m Blazebleed – 50 pcs x 1100. Deadline 20.02.1990
4. To reply about the interest in target navigation systems for a helicopter pilot. Deadline 30.12.1989	4. To reply about the delivery of not less than 120 tracks or a set for [tank] Leopard. Deadline 30.03.1990
5. To reply about payment of 1000 US dollars for devices MK-II "LAMS", assessment of the complete documentation, reply about the availability or acquisition of the program worth 8000	5. Delivery of ammunitions for aviation guns ORLYCON: armor-piercing – 30 mm APDST – 5 pcs – 100 pcs; 30 mm APDS – 5 pcs – 1000 pcs; 20 mm M56-A3 - 400 pcs;

* Document was written in Russian.

US dollars. Deadline 01.11.1989	20 mm M56-3 - 400 pcs; 20 mm M53-B3 – 200 pcs. Deadline 30.03.1990
6. To study the offer about a fax control system. Deadline 30.11.1989	6. To reply about the possibility to deliver 155 mm under-calibre shells “EBO” with W-Ni-Fe core – 3-5 pcs. Deadline 30.12.1989
7. To reply about the interest to receive decoders “TST”. Deadline 28.02.1990	7. To reply about the possibility to deliver machine guns AUG 5,56 “Steier” 1000 pcs ammunition. Deadline 30.03.1990
8. Confirmation about the acquisition of HITACHI COMPAREX 7/90 as soon as possible.	8. Reply about the possibility to deliver 100 pcs of anti-aircraft armor-piercing with metal cores caliber 20-30 mm “Hirtenberg”. Deadline 30.03.1990 Note: In case item5 is fulfilled, item 8 will be ignored.
9. To study the possibilities for selection of materials to fight viruses and send them.	9. To decipher a disc with radar documentation upon receipt of Future Net and inform the friends. Deadline 28.02.1990
10. To study and reply about the organization of the meeting with [agent] “Popov” in Moscow in November 1989. Deadline 1.11.1989	10. To reply about the possibilities to receive micro refridgerator RICON K-506. Deadline 28.02.1990
11. To allocate 3 000 US dollars for materials, which will be delivered by [agent] “Popov”. November 1989	11. To receive documentation with protocols from testing hard chromium weapon guns and technological information and recommendations about other calibers. Deadline 30.12.1989
12. To study the need from consultations with specialists from the Soviet industry on lithography and reply. November 1989	12. To study the organization of consultations of our source in lithography in Moscow following a reply ref item12. January 1990
13. To send a specific assignment on laser and optic fiber equipment. Deadline 30.01.1990	13. If possible, accelerate the acquisition of “Romashka” (Tempest).
14. To prepare orientation on objects and tasks regarding work located in West Berlin. January 1990	14. To announce possibilities to work on assignments in the areas of biotechnologies, medical industry, food industry and agriculture. 30.01.1990
15. To reply soon about the possibility to finance the acquisition of data base. 28.02.1990	15. To send assessment on materials in biotechnology received since October 1988. 15.12.1989
16. To inform about the possibility to discuss problems of interest to the	16. To present a proposal about two types of technologies for gas mask production.

Directorate for scientific and technical intelligence. 30.12.1989	30.12.1989
17. To announce the Bulgarian registration numbers of materials with grades "3" and "4" from Directorate "T" since 1.10.1988. Deadline 20.11.1989	17. To receive technical documentation with technological data about the production of carbon fibers with modules over 600 from PAN 15 000 US dollars each. 30.12.1989
18. Upon receipt, announce results from testing radio absorbing materials.	18. To receive additional information about winding machines composition pipes for all types of fibers and plastic. 30.12.1989
19. To reply about the study and testing of alloy type "Alkydal". November 1989	19. To receive documentation on profiles "Poltrusions" from different polymer materials. 30.12.1989
20. To receive detailed information, protocols, tests and comparative assessments for NiH ₂ batteries, 1500 US dollars will be paid. 30.11.1989	20. To receive documentation for FSH for 30 000 US dollars. 15.12.1989
21. To obtain technical design documentation with specifications for Na ₂ S batteries, price 5000 US dollars. If possible, receive a sample of Na ₂ S batteries for 5000 US dollars. 30.12.1989	21. To send specific tasks on catalysts, chemicals, ceramic cover, etc. 15.12.1989
22. To send assignments in the area of radiology. 30.12.1989	22. To receive Japanese program for medical radiology for 1500 US dollars. 30.12.1989
23. To send assessments of Japanese materials SERC in nuclear energy.	23. To check and inform if possibilities for insulin production exist in Bulgaria. [Col.] R. Velinov 30.11.1989
24. To give an answer on sensors in metallurgy and interest in metallurgy production of Japanese companies. 1.11.1989; 30.12.1989	
25. To send available information on the analysis of world production of proteins, pointing out their carcinogenicity and threat to the environment. February 1990
